I can be anything I want to be, anything you hate in me  
multiplied by twenty three  
sometimes in my head I think I'm someone else that  
makes me feel bad, badder than before  
it's my life, my time, I can do what I wanna do

when did I give you an invite to come round here, make  
me feel bad, badder than before

it's my life, my time, I can do what I wanna do  
it's my solo party, it's my body, and if I choose to abuse  
it with my lifestyle and my music  
what the fuck! I can't lose! it's my life! why is it I can't  
keep you far enough away?
