on and on you wait so long
it only takes a word if you found where it went wrong
fists, gists and communists
I feel like a log, it's a dog in onyx
take it awhile and adjust a-myself
ooh, it was something else

well, it was something else...

CHORUS:

if life (x8)

if love is like a love bank I want an overdraft (x4)

yeah!

in, in, invest to gain

you go get out and you find there's nothing

take, take, the whole world rakes

you don't get it back - that's a-economics

gets to my head, is it good for my health?

and it was something else

well it was something else...

CHORUS

everyone will take it till there's nothing left to give
[shit/ cheers/ fuck knows!]

CHORUS:

love is like a love bank, I want an overdraft

if love is like a love bank I want an overdraft (x10)

if love is like a love bank
