Vicky got a gun, I bet you was a good kid
Well that don't give you a licence to be stupid
You've gotta move your lip 'cos silence is a hassle
But anyone can talk, anyone can be an asshole

Meet the conversation king
Well you can say just anything
A-a-a-a

Shut your fucking mouth and use your fucking brain
Shut your fucking mouth and use your fucking brain

Gotta keep on talking keep on moving like a dream
Turn up with a mother and you can get into a team
Sounds like they're attacking so you gone away a?

Shut your fucking mouth and use your fucking brain
Shut your fucking mouth and use your fucking brain
Shut your fucking mouth and use your fucking brain
Shut your fucking mouth and use your fucking brain
Shut your fucking mouth and use your fucking brain
Shut your fucking mouth
Shut your fucking mouth
Shut your fucking mouth
Shut your fucking mouth and use your fucking brain
