Hey, I could be tired, under my skin is a nigger inside  
Hey, look at my face, how I don't change in a satisfied  
grace  
Yeah, two can play at that game, sitting under one  
thing, getting just a brand name  
Yeah, working on a system, winning and the chance is  
you already missed 'em

No one trust me, it's tough, shit brain  
He's about, hate me, insane, insane

Non stop SIN  
Non stop SIN  
Non stop SIN  
Non stop SIN

Hey, look at me now, check out my form and a figure  
out how  
Hey, feeling undone, chip away in, get you working on  
one  
Yeah, you could be a something, busy doing nothing,  
what the fuck you learning?  
Yeah, get yourself a brain there, you could be  
exceeded, you could be excited

One stop, seeing, no prob being  
Hard top partner, welcome master

Non stop SIN  
Non stop SIN  
Non stop SIN  
Non stop SIN  
Non stop SIN  
Non stop SIN  
Non stop SIN  
Non stop SIN

You could be insane, stupidly you win  
Or you could fit right in, like everybody else
