Good to be back
Good to be back
Good to be back
Good to be back

So good to be back here again
Everyone and all my friends
When everybody says hello
You know there's nowhere else to go

It's so good
Yeah, it's so good
It's so good to be back home again

Maybe I've been too far away
Strung out every night and day
When my music holds me tight
Well I'll be staying up all night

It's so good
Yeah, it's so good
It's so good to be back home again

When my baby's hold me tight
You know I'll stay up day or night

It's so good
Yeah, it's so good
It's so good to be back home again
Yeah, It's so good to be back home again
So good to be back home again
So good to be back home again
