Vers:

I'm packing my all my bags with just the neccesary
things to go away
I'm tired of my job and stopped to care about what
other people say
The freeway is clear, I'll put the pedal to the metal out
of here

Refr:

Gonna go and find my destination
Every day's an inspiration
Drive and never once look back
Gonna sing my song across the nation
gonna strum my declaration on my guitar
like a cowboy superstar

Vers2:

I'm driving down the countryside while everybody else
is waking up
I know it's just a headstart but I'm feeling that right now
I am on top
No end is in sight who knows where I am gonna be at
tonight

Stick:

I'm driving through the canyons I'm driving through the
towns
and I've never felt more alive
To me this life is freedom to every last detail
All that I want is just down the trail
