I feel like I'm dying inside
The pain won't go away
Fuck the world, fuck all life, it's tearing me apart
I stand alone, watching the sun go down

Breathe, my child
There is no end for this
Blood running down your hand
Enjoy the pain, 'cause it will last

I step away from you
You, who wanted to help me
I wanted your help, but instead I blamed you
Thirst for blood more than sane

Breathe, my child
There is no end for this
Blood running down your hand
Enjoy the pain, 'cause it will last

Last...

Breathe, my child
There is no end for this
Blood running down your hand
Enjoy the pain, 'cause it will last

Breathe, my child
There is no end for this
Blood running down your hand
Enjoy the pain, 'cause it will last
