"Hard To Defeat"

So you think that you can come here and rule this
world?
So you think that you have become the master of this
game?

Your nuclear missile isn't enough to destroy my army
of machine
I have the largest infantry, it will be hard to defeat me

Hard to defeat

The poison doesn't bite me, I repair all of my wounds
But I don't have much money, my army begins to fade

Your nuclear missile is soon enough to destroy my
whole army
But I still got the largest infantry, I am hard to defeat

Hard to defeat
Hard to defeat

I lost
Your army made an attack which I couldn't hold
You are victorius
I am defeated

Hard to defeat...
