

## Wild Nothing

### "Nocturne"

Visit "[Nocturne](#)" on MotoLyrics.com

You wanna know me  
What's to know  
Do I amuse you  
When the night is slow  
Do your eyelids ever close  
Caught spirits in your waking woes?

I know where to find you  
Know where you go  
And I just want to let you know  
You can have me  
You can have me all  
You can have me  
You can have me all

And you're twisted  
What can I say  
Your days are empty  
And my tongue's decayed  
And we stay up just  
One more night of your company

I know where to find you  
Know where you go  
And I just want to let you know  
You can have me  
You can have me all  
You can have me  
You can have me all
