Did I tell you she's not good for you  
Did I mention she's not free  
Can I tell you can I show you  
I've been waiting on my knees  
I will be your movie star  
I will be your movie queen  
I will touch you in the dark  
When you're alone and bittersweet  
I've seen the ring on her finger  
I've seen the fire in her eyes  
I know that smoke always lingers  
In disguise  
So I see we've got a problem  
Back by popular demand  
I call you call her but the line is busy  
I can understand
