I creep through the valleys of tombs and ghosts
I hear a whisper in the wind so silently
Suicide or Murder are my only options left
Suicide or Murder are my only options now

What have I lived for
Looking back at my self
Am I adored?
All I think about is the beauty of this misery
What have I lived for
What have I lived for

Please let me bleed
I thought this out so perfectly
Please let me bleed
So silently
Just step aside and close your eyes
And fall into me
Fall into me

What have I lived for
When it all left me
What have I lived for
When it ran right through me
All I think about is the beauty of this misery
What have I lived for
What have I lived for

Beautiful misery (x6)
Beautiful!

This beautiful
This misery
Step aside, close your eyes
Let me guide you into the dark
Step aside, close your eyes
There's nothing left for you now
(x2)
What have I lived for
Looking back at myself
Am I adored?

All I think about is the beauty of this misery
What have I lived for
What have I lived for

Close your eyes (x3)
For the very last time...
