History is everything  
Said the professor to the petitioner's girl  
She, playing with her shoe,  
Says I just want someone, I just want something new

I don't know what hit you  
Don't care where ya been  
I just know you gotta' go

Speed is everything  
Said the co-pilot to the girl with the braid  
She, looking round the room  
Says I just want someone, I just want something new

I don't know what hit you  
Don't care where ya been  
I just know you gotta' go

Timing is everything  
Said the conductor to the boy half his age  
He, tightening a screw,  
Says I just want someone, I just want something new

I don't know what hit you  
Don't care where ya been  
I just know you gotta' go
