They've got you, where they want you
Nothing's ever gonna satisfy you
You think, they'll never buy you
They're doling out affection
Just like a confection

It's hard enough to know, which way to go
Without you in my head

This could be my lucky day
This could be my lucky day
This could be my lucky day
This could be my, my lucky day

You have give them credit
Especially, when it is due, yeah
Love becomes a debit
You can whisper me in seconds
Kiss me by the session

It's hard enough to know which way to go
Without you in my head

This could be my lucky day
This could be my lucky day
This could be my lucky day
This could be my, my lucky day

I'm dizzy like the ceiling, yeah
I'm stupid like a middle name
I don't know what I'm feeling
Why don't you kiss me
While we're sinking into the unthinking

It's hard enough to know which way to go
Without you in my head

This could be my lucky day
This could be my lucky day
This could be my lucky day
This could be my, my lucky

This could be my lucky day
This could be my lucky day
This could be my lucky day
This could be my, my lucky day
