I was an a path to the limelight,
Now im on another one. Its a night-flight,
When they say I'm a star I say thankyou,
Its all due to the scenes that i ran through,
So i keep flying the flight for all people,
No messing about we're all equal,
Vibe alive in the club when I roll in,
I get around with the crowd when I'm roaming.

Everybody right now,
Can you hear me,
Through the speakers turn me up,
If you hear me,
Ayayaya Ayaya,
Ayayaya Ayaya,
Everybody right now,
Can you hear me,
Through the speakers turn me up,
If you hear me,
Ayayayaya, Ayaya
Ayayayaya, Ayaya

They should know i bring vibes on a club night,
Keep the crowd hyped up for the party, R.E.D,
She wanna say words in my earlobe,
Reminds me theres an hour at the party left,
See the fireworks,
Celebration,
Team winning the great goose,
Amazing,
Send them Jagerbombs,
I got a craving,
So many women I don't wanna stop raving,
They should know I got tunes for the galdem
Once the ladies are there,
See the mandem reach,
They wanna leave there with a number,
Check the peng ting, She's gonna hang with me,
Im skanking, all round the party in skaking,
I got girls to my left, And girls to my right,
When we're at the bar we ain't ramping

Everybody right now,
Can you hear me,
Through the speakers turn me up,
If you hear me,
Ayayaya Ayaya,
Ayayaya Ayaya,
Everybody right now,
Can you hear me,
Through the speakers turn me up,
If you hear me,
Ayayayaya, Ayaya
Ayayayaya, Ayaya

Wiley called me on the iPhone,
Said get my passport told me to come through,
Put your sunscreen in your suitcase,
When i arrive I'm causing a heatwave too,
Got my snapback and my vest on,
Looking at the hot girl with the red dress,
Light skin with a beautiful Body like Kim,,
So i got to get my Kanye West on,
She told me she's feeling my jewelry,
She said she's in love with my Jesus piece,
I told her to look again closely,
It's not Jesus, baby, Its JME,
And I was like baby comeover,
I dont bite girl come a little closer,
Come a little closer,
I dont bite girl come a little closer.

Everybody right now,
Can you hear me,
Through the speakers turn me up,
If you hear me,
Ayayaya Ayaya,
Ayayaya Ayaya,
Everybody right now,
Can you hear me,
Through the speakers turn me up,
If you hear me,
Ayayayaya, Ayaya
Ayayayaya, Ayaya

You know i don't usually party,
But skepta and wiley said its a Hype,
I can't find my phone and my car keys,
Like Zippy Tafari said on the mic
The vibe is off the richter,
And I can't even tweet a picture,

I'm on the dancefloor,
And the joke is that I've never had a drink and I'm
acting the drunkest,
She's staring like I'm a weirdo,
Or then again,
Maybe she likes me,
Im not supposed to be hear though,
Haven't got a wristband for the VIP,
No triple A pass,
But I'm partying with the stars,
Yep, I can't complain,
I just enjoy it while it lasts

Everybody right now,
Can you hear me,
Through the speakers turn me up,
If you hear me,
Ayayaya Ayaya,
Ayayaya Ayaya,
Everybody right now,
Can you hear me,
Through the speakers turn me up,
If you hear me,
Ayayayaya, Ayaya
Ayayayaya, Ayaya
