"Here I Am"

Tell me now, what's love is
The holy war's built baricade
Between our hearts
Waiting for another day
I'm praying for peace on earth
But why would someone
Believe in death not life
Here I am
I wait for your love
Like an angel
I save light in our hearts
Tell me now, if you can
Where was God
When you changed
Your guitar for a sword
I listen to the voice of earth
I feel her pain
When I hear her
Call for love
Like a child in the dark
Here I am
I wait for your love
Like an angel
I save light in our hearts
