Someone I know
Carries a heavy load
They just can't see
The forrest full of trees
Don't let the world break you down
Everything's turning around
So push me down if it makes you feel better
I'll get back up anyway
And if you think that it makes you weaker
You're wrong
It just makes you human
Some people feel
Like they won't ever heal
You've gotta know
You're not in this all alone
I'll always be there for you
No matter how much you lose
So push me down if it makes you feel better
I'll get back up anyway
And if you think that it makes you weaker
You're wrong
It just makes you human
There are times in my life
When I felt that way
So push me down if it makes you feel better
I'll get back up anyway
And if you think that it makes you weaker
You're wrong
You're wrong
It just makes you human
