(feat. Blaze & Triggz)

Me stay in and you're going out?
Nar, you stay in and I'm going out
It's ok I, know we both like to rave,
But you like to rave, I like to say, it's alright though.
Here I go spending money, champagne, five-os
everythings funny,
You ring me I try to ring you -
Can't get through now life ain't sunny cause
You ain't sure if I'm getting down with a gyal dem,
You could be getting down with a mandem.
Whatever. I'm gonna have a good time,
Cause I was born a raver, standard.
Wanna stay out all night in Camden,
I'll be home at 6 turns out you arrive at 8,
And I'm not amused she's actin' like she ain't got a
mandem

If you're going out I'm going out too,
You can wear vagent I'll wear blue,
Draw attention to yourself all night,
Yeah that's okay I can do that too. [x2]
