[Hook:]

Even though you don't know
Even though you don't know
Even though you don't know my name
Me and you bleed exactly the same
I smile and come across I'll tame
A hundred volts take your life ain't no game
I switch them lights on, yeah, yeah, yeah
Hey Dj turn them lights on, yeah

[Verse 1:]

She got her light switched on
My lights switched on
She looking in my eyes like I like this don
I wanna know what side she's from
I see many girls but I like this one
Told me she was a west side lady
Had a few friends but they were all shady
Now she on the solo ting
So nobody can't send her crazy
Too many friends and not enough true friends
Made her wanna go and move to a new ends
I hear her though, 'cause even if my life gets lonely
It's all good, to keep few friends

[Pre-Hook:]

We connected I asked her out and then she accepted
I think she gets it
When the end of the night comes
Me and her leave through the exit

[Hook:]

Even though you don't know my name
Me and you bleed exactly the same
I smile and come across I'll tame
A hundred volts take your life ain't a game
I switch them lights on [when the end of the night
comes] yeah, yeah
Oh Dj turn them lights on [I like this one] yeah

[Verse 2:]

Anywhere we go we're bound to have fun
You take care of me we getting the job done
She keeps my mind calm getting alot done
I know it's all new but it feels so long
On first sight I wanted to be acquainted
People gonna see us out clocking that we are dating
And we don't know where we even wanna take it
But we got it good bond I don't wanna break it

[Pre-Hook:]

We connected I asked her out and then she accepted
I think she gets it
When the end of the night comes
Me and her leave through the exit

[Hook:]

Even though you don't know my name
Me and you bleed exactly the same
I smile and come across I'll tame
A hundred volts take your life ain't a game
I switch them lights on [when the end of the night
comes] yeah, yeah
Oh Dj turn them lights off [I like this one] yeah

[Verse 3:]

Dj hit up the switch already
Turn the lights on, Beyonce
When you're not quite there but I must say
I like the dimples on that face
Yeah I'm liking the tats on her ribcage
Oh, that sexy dress the only part that's revealing yes
That's why I'm respecting her
Rejecting them and selecting her [Stryds]

[Outro:]

Anywhere we go we're bound to have fun
You take care of me we getting the job done

I switch them lights on yeah, yeah
Oh Dj turn them lights on yeah

When the end of the night comes
Me and her leave through the exit
