Lookin for the sky while I'm chilling on the sofa
I'm a weirdo, why you callin me a joker
I make boil degs when I go into the mission
Even if my raps ack in the cad now it's pissing
And my days gettin verse, my banes might burst
Dezert and dinner but I had 2 desserts first
When I got the pang I will never buy a mursh
Here I go again gettin busy in the verse

I'm a weirdo but I'm not a bi-polar
Turn up at the show I aint even seen the poster

You aint on the same planning as me
You aint on the same planning as me
They aint even on the same planning as me (x2)

I'm a weirdo but I'm not a bi-polar
Turn up at the show I aint even seen the poster x3

I walk around the face I aint even gotta show her
I was like hi how no one even knows tha
I was like how you was a number one toaster
You could be much fitter if you chatin bout toasters
Now you live in space girl and got an ford focus
Shout out to the beer though and the bear polars
