

## A Wilhelm Scream

### "Deceased"

Visit "[Deceased](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I'm not here to harm you  
So let me disarm you, you'll see what i mean  
I'm yours for you already know me  
Stay with me and show me the way to my dreams

Together we can live a life we know is real  
We move silently through my room and make me feel  
That love can be a place we never have to leave  
Be strong, stay with me, never disappear

Deep in my heart i see clearly  
We should be revealing our secrets today  
Please, don't just stay there, i'm waiting  
For the plans you've been making to take me away

Together we can live a life we know is real  
We move silently through my room and make me feel  
That love can be a place we never have to leave  
Be strong, stay with me, never disappear

Together we can live a life we know is real  
We move silently through my room and make me feel  
That love can be a place we never have to leave  
Be strong, stay with me, never disappear

Together we can live a life we know is real  
We move silently through my room and make me feel  
That love can be a place we never have to leave  
Be strong, stay with me, never disappear
