[Verse 1]

Pitifully I'm tired of cats up in the industry
they poison all the water which we drink, that's slowly
killing me
Politically, I'm feeling me now here's a taste I never
thought
that anyman's ethnicity or race would be a ticket to
success
In the United States of America
I'm tellin' ya if you decided delegation of the
government
and votes are still miscounted, covered by the bureau
Investigate the tracks hide yourself and watch your
back from Men In Black
I state the facts, nothing but the truth
why even lie I swear to god, cross my heart and hope to
die
Beam me up scotty, it's time to leave the sheissty
people
destination outter space and live in peace whitout the
evil
I see you at the end parrallel to the suns above
Hope you brought your family and everybodey's ticket
stubs

[Verse 2]

Let the madness begin, let it begin, mother earth
uppercuts me to test my chin
I've been to the dark side of the moon
You've got to read everything she talked to me so
journey on the odyssey
You and I can switch around the glitches of the matrix
and learn how to take this down to the basics
Like DNA we can stay till we get settled in and come
back when we have a new president
I've never been so sick of livin' in California
you could find me looking for the glory
Next to the text in the middle of a range-rizzle
in the last chapter of the neverending story
So help me with my back pack, no it's not strap-that
Tightly, we might be walking with a sheissty

Hands of the penniless and living with the envious
venomous snakes in the grass of society

[Verse 3]

Time for us to disappear to another frontier
I look around and it's unclear
Are we the only one's here
the only volunteers
that will gather up the people to make them see what
we do?
So get ready everybody gather around I didn't mean to
stress you
I'm just really trying to bless you. It's the Son Of Ran to
the rescue. Memphis Reigns

[Verse 4]

Yo, all the board voluntarily on your own accord
Take a trip to suck the ecstasy to see no left to be
a fugitive of humanity, actually welcome to a better life
It's like the single fact, that you yourself may not really
know me
That's all that I ask you, hand you opportunity to call an
I-sue, my crew and I can thank you
Welcome a drama of region number four, where no
living things that plead
or any man has ever gone before
