Hey sport is a thought from the old school crew  
a serious situation that we all go through  
it deals with our feelings so dig what I say  
It's like a day when nothing seems to go your way  
Yo bust this two people that really like each other  
he says there's no one else and she claims there is no  
other  
Yo Slick Rick hit me with that teenage love  
bout that same way I'm a hit you with that songodsuns  
I remember you dancing in my room to Sean Paul  
much more than a summer run as you were my baby  
doll  
I loved you under my wing much more than anything  
The way you made me see the forever and everything  
dancing in rhythms that I couldn't't understand  
If only I knew I would of never let go your hand  
And a but then you left me probably for your ex  
You can't keep on running from one onto the next!  
You disappeared in the night to bomb trains  
Had a fear I wrote these songs of pain  
Dedicated to the night you didn't call

Write your name on the wall its like over and over again  
there's so many more words  
And some of my friends don't like you there's  
So many more girls and a  
I feel so lonely that I'm a earl but  
tonight I fall in love with you over  
And over again

I heard you got a tattoo of some stars on your side  
hoping that guys think that you're a star inside  
But they just wanna get inside and I know  
because I wanna get inside your head  
And find out how you made me feel so dead  
I slowly bled the ink runs away from me too  
You jocked that fool from blink 182  
But I'd rather kill myself than have you think I'm hating  
you  
We used to laugh and say well never be apart  
And a my other half in fact my better part

You got an autograph from saber on his art  
now I wanna a autograph a saber through my heart  
And its like your too young to know love  
I'm to old to say no to love  
I was hoping you would grow to love  
something that wasn't there at all

Write your name on the wall its like over and over again  
there's so many more words and some of my friends  
don't like you  
there's so many more girls and a I feel so lonely  
that I'm a earl but tonight I fall in love with you over and  
over again

The day you made yourself less accessible  
was the day I began to stress these decibels  
I first started hating myself around the time you  
started hitting  
freights by yourself  
It's like part Puerto Rican and part Cherokee  
your heart is what I'm seeking apart from therapy  
I say I need better but I still need you  
spray you close to my letters like my heart that bleeds  
through  
I could never be a writer or a bomber  
to many words and its not for me to farmer  
But then again I probably could too  
I seem to be stuck on you

It's like over and over again  
there's so many more words  
And some of my friends don't like you  
there's so many more girls  
And a I feel so lonely that I'm a earl  
But tonight I fall in love with you over and over again

saw you at the show  
You pretended that you never knew me  
I don't know I guess ill act like I rented you like a movie  
You always have guys around to fall all over you  
I can't believe I hit the ground when I fell in love with  
you  
And I got up cell phone rang it was this girl named  
\*\*\*\*\*

she was ready to hang  
like BSC said boy do the damn thing  
cause your boys back again  
It's like over and over again  
there's so many more words  
And some of my friends don't like you  
there's so many more girls and a

I feel so lonely that I'm a earl  
But tonight I fall in love with you  
over and over again  
there's so many more words and  
some of my friends don't like you  
there's so many more girls and a  
I feel so lonely that I'm a earl  
But tonight I fall in love with you  
over and over and over and over and over and over  
again  
there's so many more words and some of my friends  
don't like you  
there's so many more girls and a I feel so lonely that  
I'm a earl  
But tonight I fall in love with you over and over again
