Love! I just gotta have it
I believe in - Love
Come let it go...

What a big surprise,
It finally happened to me.
Now I realise,
just how good love can be.
Cause when we dance together
you're like a dream come true.
I feel so beautiful
and hot inside
oohh, it's all 'cause of you.

Love, I just gotta have it
I believe in - Love
I can't live without it
Come to me and make your confession
Love - Come let it go!

Love, I just gotta have it
I believe in - Love
I can't be without it
Come to me and make your confession
Love - Come let it... go!
