In my younger days, I wished I knowed then like I know
now

In my younger days, I wished I knowed then like I know
now

I wouldn't be standing around here, begging for this
little woman to let me in her house

Back in those days, I wished I'd knowed then like I know
now

Back in those days, I wished I'd knowed then like I know
now

The money I was throwing away, I could have saved it
and bought my own house
(And I'd've had a home)

In my younger days, I wish I knowed then like I know
now

Well, in my younger days, I wished I knowed then like I
knowed now

I wouldn't be standing 'round, begging this woman to
let me in her house
