Nine below zero on the outside,
but I brought my baby's temperature to a hundred and
ten
Nine below zero out on the outside,
and I brought my baby's temperature to a hundred and
ten
Ever since the little girl put me down for another man

I give 'r all of my money, my lovin' and everything
All of my money, all my lovin' and everything
I brought my baby's temperature up to a hundred and
ten,
and she done put me down for another man

Temperature nine below zero on the outside,
I brough my baby's temperature up to a hundred and
ten, oh yes I did
Nine below zero,
and I brought my baby's temperature up to a hundred
and ten, oh yeah
Ever since then she done put me down for another man
