"Work With Me"

Yes work with me, baby, and I'll work with you
Work with me, mama, and I will work with you
I'll try to make it so pleasant, darlin', 'till you don't know
what to do!

Ah, let me work wit' you, and I'll learn you how to work
with me
Let me work wit' you, and I'll learn you how to work with
me
Little girl I'll make you so happy, be as happy as a child
can be!

Oh, I like to work with you, baby, I can work all night
long
I like to work with you, baby, I can work all night long
If you work with me me little girl, you know, you can't
go wrong!

Mama I never gets tired of workin', I trained up workin'
from a kid
Never gets tired of workin', I brought up workin' from a
kid
Anytime I put up a good job for you, don't try to keep it
hid!
Or tell your girlfriends 'bout the work I did!

Note: It was the 2nd of 3 songs Sonny Boy did at his
first Chicago session for the Chess label.
