"Because you love me"

Visit "[Because you love me](#)" on MotoLyrics.com

Because you love me the stars are shining from the
heavens above
From the heavens above
Because you love me the moon is beaming its light of
love
Its light of love

If you should cease to care the world would stop
And oh the sun would turn cold
And the moon would drop, the waves in the ocean
would cease to play
And night'd never turn to day
The birds and bees keep mating, the world keeps
rotating
Because you love me because you're mine

Because you love me my heart is singin'
Each day's a thrill well every day's a new thrill
Old troubles behind me till the blues can't find me
Because you love me because you're mine

If you should cease to care the world would stop
And oh the sun would turn cold
And the moon would drop, the waves in the ocean
would cease to play
And night'd never turn to day
The birds and bees keep mating, the world keeps
rotating
Because you love me because you're mine
