So now we're standing here
Together but apart
On each side of the mirror
On each side of the wall
I can only see your back
So please turn around
Do we live in same dimension
Int the same time
Oh, I can't reach your feelings
When do you arrive
And I wish that I could sing
I wish I could say
Hey! Can you see me
I'm standing in the dark
Would you hear me in the storm
Reach me on the top
Would you hold my hand
If I told you to
If I told you to
