I wrote you songs a hundred times
I wrote them so you'd know that I was in love
I'm saying something about the stars and the girls
Oh how they don't know, you know I'll never know

I thought I made it so obvious,
Obviously I did not
Their flashy photos and their eyes,
They make me nervous,
And write in marker on their thighs,
She liked it better that way

You never have a thing to fear because
K-A-T-E-L-Y-N,
You know I'm with you 'till the end,
You know that I love you,
I will love you forever

So let's just throw it away and leave this town today
We'll run to the west coast to live in Seattle
I'm singing circles with cellular motivation
I was searching locations for space stations but I
caught my own star

I thought I made it so obvious,
Obviously I did not
You say I'm dear to you, is that true?
I've got a hundred other hearts that add up to my love
for you

White sunglasses, throw up peace signs,
You make me nervous,
Few clothes with brightly colored lines,
She liked it better that way

You never have a thing to fear because
I-L-O-V-E-Y-O-U my dear!
Oh, I'm with you 'till the end,
You know that I love you,
I will love you for always

But keep this in your mind
I will run away, then we can run away,
And I will keep you right here, I'll keep you right here
If you ran away, I'd start the search today,
'Cause you know that I need you
Darling I need you
Oh today, what do you say?

Someday we'll have our own life,
But we've got some growing up to do
That makes me nervous,
I wish it wasn't that way

You never have a thing to fear because
K-A-T-E-L-Y-N,
You know I'm with you 'till the end,
I swear that I love you
I will love you forever
