She's got my heart strapped down  
To the beat just like that 808  
Did you know I'm thinking of you everyday

Is it wrong  
Is it wrong  
Is it wrong

Is it too loud now  
It's the shaking of your bones, yeah  
From your head down to your toes

Run along  
Run along  
Run along

She's gonna move like the smoke in your lungs  
And I'm dreaming I can feel it with the tip of my tongue  
And tell me how you're feeling  
We can touch the ceiling  
Jump start my heart

Oh girl  
I wanna know your love  
I wanna feel your warmth on my skin  
(so recklessly)  
I'll show up and be your summer love  
Cause you're the breakout feeling of my week  
(so endlessly)  
Say there's still time

And did you feel the beat stop  
Drop your heart  
Pick it up, yeah

I wanna see your night eyes  
And if it feels right  
Well then maybe we can be alone  
Take everything around you  
Let me surround you

Is it wrong  
Is it wrong  
Is it wrong

Is it too late now  
For me to compliment your style  
You've got that subtle grace for miles

Run along  
Run along  
Run along

She's gonna move like the smoke in your lungs  
And I'm dreaming I can feel it with the tip of my tongue  
And tell me how you're feeling  
We can touch the ceiling  
Jump start my heart

Oh girl  
I wanna know your love  
I wanna feel your warmth on my skin  
(so recklessly)  
I'll show up and be your summer love  
Cause you're the breakout feeling of my week  
(so endlessly)  
Say there's still time

Feel your heart drop  
Pick it up yeah  
And I can tell we're gonna be alone

So let that heat last  
Bring it back  
Girl jump in my arms  
Cause oh the weather's getting kinda cold

She's gonna move like the smoke in your lungs  
And I'm dreaming I can feel it with the tip of my tongue  
And tell me how you're feeling  
We can touch the ceiling  
Oh

Oh girl  
I wanna know your love  
I wanna feel your warmth on my skin  
(so recklessly)  
I'll show up and be your summer love  
Cause you're the breakout feeling of my week  
(so endlessly)  
Say there's still time

Night sky  
Light up your diamond eyes  
And baby you won't feel alone  
You won't feel alone  
I'll show up and be your summer love  
And feel the heat seep through my bones  
Say there's still time
