Something is missing, in a love affair
Maybe its been, like its not even there
when I touch you, you feel so distant
kissing her kills, baby
is still no differnet
Have we been so busy
(that we can't make time)
for some intimacy yeah
(when the moment is right)
I still want you, baby
as you can't see
feels like you slipping away from me oh oh

Do you know how I feel
Do you care
(am I just here)
Do you know what I need
do you know baby
Do you really know x4 baby

Looking back on happier times
I touched your body and you wouldn't mind (you
wouldn't mind)
now it seems everything that I do, somehow bothers (Lord)
seems to annoy you
what more can I say, I
given everything I've got
anything that I have done right, you conviniently forgot
are you listening, do you hear what I say
we can't go on this way.. nooohhh

Do you know how I feel
Do you care, am I just here
Do you know what I need
(Baby)

Do you really know
Do you really Know
(DO you really Know)??
Do you really know

Do you really know

hhhmm

What happened to that thing we had

(to that ooohhh ooohhh)

Good times that we shared

we talked all night

then call one another for days,

Can we get back to that loving lust, that special bond

we had between us

ooohhh oojjj

Do you know

Do you know how I feel

Do you care (ooo oooh ohh) Am I just here DO you know?

DO you know waht I need

Baby, do you know, do you really know

Do you know

do your really know, Do you know?

My feelings baby, baby baby baby (do you care)

do you really care, or am i jsut here to amuse you baby

(do you know what I need)

Do you, Do you , Do you know

Do you , DO you Do you really know ! baby

DO you really know, really know cause I still care about you
