I don't want to lose you
I love you as you are
I don't want to lose you
I couldn't love you more
So please tell me that love will remain
Though we may change

Who do you think you are?
Who do you want to be?
You're the only one who really knows.
Maybe you'll be surprised
After your search is through
Then you'll find that you've been chasing you.
Believe me I understand
The visions of your mind
But I'm so afraid that
The one you'll find
May not need someone like me.

But I don't want to lose you
I love you as you are
I don't want to lose you
I couldn't love you more
So please tell me that love will remain
Though we may change

I really think that you
You have little faith in me.
You're the only one I'll ever need.
Cause if you really understood
Just how much you mean to me
All your doubts would fade and disappear
Maybe you'll never find the secrets of your mind
But you've got to try and I realize
And I'll help you all I can

But I don't want to lose you
I love you as you are
I don't want to lose you
I couldn't love you more
So please tell me that love will remain
Though we may change

Oh, maybe you'll never find the secrets of your mind
But you've got to try and I realize
And I'll help you all I can
I'll help you all I can

See I don't want to lose you (no no no no no)
I love you as you are
I don't want to lose you
I couldn't love you more (couldn't love you more)
So please me that love will remain
Though we may change

See I don't want to lose your love
Don't want to lose you
Don't want to lose you
I don't want to lose
I don't want to

Because I love you so much
And I need you by my side baby
I don't want to lose
I don't want to lose
I can't live without you (I can't)
I don't want to lose your love
Oh my baby, oh my love
I'm going to do everything my satisfy darling
I'm going to do everything to satisfy my love
My love, My love, My love
