Umm Umm Umm Umm On my special island gentle breezes the sun and sand and surf and sea called you here to me I'll be waiting for you baby. You'll forget about time when the earth meet the sky here's the question Dont you want to get away on my hideaway i'll be waiting. Whao Whao some people say love is fantasy if you fly away with me i'll make it real come and spend sometime on my Island (On my Island). All you need is to believe if you fly away me i'll make it real. Come and show me love On my island (On My Island) Yeah Yeah.... Come my way , Come my way, Come my way Ohhh Ohhh Ohh I am gonna give you love lam gonna show you love On my island. I'll give you the sun in the sand and the Moon and the stars and everything you are I'll will give you love on my Island
