Watch my world spin round

It stops for you

I'll give you heaven for a view

I set my sights on high my aim is true

I'd walk on water just for you

All is all I can give you

All is all I can do

All is all I wish for when I'm with you

Come lay your troubles down

Rest here with me

My kingdom is all yours to receive

Well I'll push the clouds away

So you can have sunshine

I'll give you anything that your heart desires
