Down by the sea I think I saw (yeah yeah yeah yeah)

Our love dissolve

So plant a little seed

Soon it starts growing

Shed a little light

Soon we'll be glowing

Hear a little tune

Soon we'll start singing

Give a little love

Then love will start breathing

Out by the bay

I long to be (yeah yeah yeah yeah)

A man of peace

I'm gonna breathe love

Yeah I'm gonna take a deep breath for you

Come on now people

Come on now breathe
