Have i asked for too much
if i did please forgive me
please allow me another favor
peel my flesh and grab the twine
And run unwind me
i want to be undone for you
You're getting what you want
because my guard is down
which seems to run in cycles
so you better hurry before this ones up
Do you want to get to the core
i wanted to let you in from the start
I'll be the water to poor over concentrate
you're windshield poetry has loosen my seems
Beware though this
ball has seen many games and
has never worn down after centuries
of playing a mascot to my families legacy
a trophy or a symbol of our minds fortress
