breakdown, turn it around  
don't stand up cause you might get knocked down  
its all over the set  
then they give you a smile let you watch anyway  
i've see it all over the news  
everybody's been talking with a face full of shoes  
tv and your radio are all on the blink  
so get yourself a pistol to learn what to think

(chorus)

tonight tonight we'll hold on tight  
get your ticket it's time to go  
welcome to the big show

big money bottle of dreams  
got your cold laced fingers with your cocaine rings  
want to see the dark side of town  
so make a deal with the devil and he'll show you  
around  
champagne parties with phone call girls  
ashtray babies with dimstore pearls  
nickelback jewelry and a velvet chain  
hollywood hollowfaced down in the rain

(chorus)

(repeat first verse)

(chorus)

welcome to the big show (x3)
