"I'm Yours Forever"

I have seen your face before
You look so familiar
And yet, it's plain to see
That we're no strangers

The way you look at me, oh, baby
It's very plain to see
That we are two of a kind
And I will be so faithful to you
My love, if only you would take my hand
And say you want me, then I will be yours forever

The way you look at me, oh, baby
It's very plain to see
That we are two of a kind
And I will be so faithful to you
My love, if only you would take my hand
And say you want me, then I will be yours forever
