

Souls Bouncing

"Night On Earth"

Visit "[Night On Earth](#)" on MotoLyrics.com

Passed some time on the stoop on the block were we
used to sit

I thought about it all too much I thought so hard i
couldn't see

Pete rode by on his Hutch Passed some time on the
stoop on the

block were we used to sit i looked down and tied my
shoes

I thought about it all too much i looked up and then i
knew

I guess these things were meant to be and there's no
use fighting

what's in me Night on earth Passed some time walking
around

looking for something to be when i stopped to look
around

all the music was different to me All these places we
used

to go when i loved you i didn't see I'll miss you but now

i'll know better next time because i found me
