i'm beatin' down doors stumbling down the
street dialing the telephone.

Up all night up all morning right here is my home.

But i know i don't even have to try i'm a single
sucessful guy

lonely with my friends lonely with my favorite girl

lonely when i'm all alone

if you're gonna talk i gotta listen because right here is
my home

it's easy i don't have to try i'm a single sucessful guy.

My ears are ringin loud but i can't hear a sound.

I'm carrying all i own and my heart is heavy in my
chest.

Right here is my home its easy i don't have to try i'm a
single sucessful guy
