featuring Kara Wethington)

I've got to be me baby and you gotta be you

Something isn't right but i know i love you

I only want what's best i don't know Is this

some kind of test. Yeah and you're failing

all we do is bicker

Say goodbye Kiss my ass I hope you die

Wish me well You can go to hell

We were so different a short time ago Love

is suppose to make us happy supposed to make us  
grow

But i just wanna punch you in the face

i love you i guess needed the space

Oh well another time and another place

Say goodbye Kiss my ass I hope you die

Wish me well You can go to hell
