You can call me a slut  
You can call me a liar  
I got so many names now  
I can't even deny it  
You can call a thief and put up a fight  
bury me six feet under the ground

But if you think I look mad today  
You should have seen me yesterday

You can call me a beauty  
You can call me a beast  
But it's nobody's business what I do or please

So this song is from me to you  
you make me mad and you make me blue  
Cause when you're looking like I do  
you know I can see you  
We dance to the same groove  
but I got the right move

CHORUS:  
Hope your happy now  
but I'm not giving in  
I hope you're satisfied  
with your bullshit and your lies  
Hope your happy now  
but I'm not giving up  
I hope your satisfied  
can't bury me alive

they call me a slut  
then call me a liar  
got so many names now  
I can't even deny it  
they call me a thief  
they put up a fight  
try bury me six feet under the ground

So this song is from me to you  
you make me mad and you make me blue

you're looking like I do  
you know I can see you  
We dance the same groove  
but I got the right move

CHORUS

Ha! Ha! Ha, ha!

CHORUS

I hope your satisfied  
Fuck you and fuck your lies
