Dance, dance, dance, in the graveyard,  
Slow down, pretend to save your,  
Loneliness is free,  
You're lonely cause of me,  
Peel back layers of hatred,  
Black eyes swollen and sacred,  
Dark skies fallen and taken,  
All because of me.

I sing for the damned,  
The soulless hand in hand,  
When god has fucked a queen,  
What a sight, what a smell,  
What a fucking scene. [x2]

Dance, dance, dance in the moonlight,  
Kill joy pleasure for all time,  
His art shooting the sunshine,  
All because of me,  
If I find you alone and afraid,  
The threat of losing the life that you've made,  
It's grey always,  
All because of me.

I sing for the damned,  
The soulless hand in hand,  
When god has fucked a queen,  
What a sight, what a smell,  
What a fucking scene. [x2]
