I miss the days when we tanned in the summer time
Made you say oh when I dropped the nice line
Used to hold hands when we shared an ice cream
In reality it seems like a nice dream
That's what I miss still and I want it back
I really wander, where did we lose track
I'm on the right roll please ... help me steer
If you need me, call me and I'll be there
Hard times in my head I still hear your voice
Then I think wow, did I made the right choice
Don't think so and now I'm leaping in,real
I wanna make you up, but take you baby steps
All you gotta do is nod your head and say yes
Give you my all, don't expect nothing less
Nah, don't expect nothing less
When it comes to you, you get nothing but the best

[Chorus]

Until the sun goes down, baby I am thinking of you
Every place that I go, no matter what else I do
,after a heart, girl I still think you're mine, I miss you
And I'm still missing you, I do
And I'm still missing you

Ok, I can see acting cautious,
And I see in your eyes you looking nervous
You my purpose, please girl just understand
I miss the days on the beach walking on the sand
Yeah, yeah, I know you miss them days too
Now you act like you don't really what you trying to
prove
Mixed messages, I'm feeling all confused
With my hate in my hands don't know what to do
, we never gonna make up
Wish it was a nightmare just wanna wake up
But I see that, you actually moved on
.. never fell apart,so strong
Why is so long, cause I miss you so bad
I , so mad,
Sleep is not , the room, , just proves how much I really
miss you

[Chorus]

Until the sun goes down, baby I am thinking of you
Every place that I go, no matter what else I do
,after a heart, girl I still think you're mine, I miss you
And I'm still missing you, I do
And I'm still missing you
Until the sun goes down, baby I am thinking of you
Every place that I go, no matter what else I do
,after a heart, girl I still think you're mine, I miss you
And I'm still missing you, I do
And I'm still missing you.
