et me love you  
to live with you  
(let me be) every thought from the mind  
i can't leave away from you  
let me love you  
and if this is the end  
if i leave, if i get lost  
i will come back to you  
let me love you  
with the 1st glance  
thunder in my heart  
you were a dream that seemed  
to take fire  
from the 1st moment  
you were in my soul  
you came into my life  
and i've got wings  
let me secretly enter into your life  
i want to taste your 1st kiss  
what if i can't live with you  
let me love you  
to live with you  
(let me be) every thought from the mind  
i can't leave away from you  
let me love you  
and if this is the end  
if i leave, if i get lost  
i will come back to you  
let me love you

with the 1st glance  
thunder in my heart  
my mind has left  
and changed the track  
don't count the money  
the night is ours  
(with) a breath, a caress  
you send me up high
