It was a beautiful day
And the sun was shining high
Not a cloud up above
It was a good day to die....
And I got my chores done
And I got the horses fed
I took a swim in the pond
Just to clear out my head
Oh, It was a good day to die
It was a good day to die
Lord knows I gave it my hardest try
Well, it's a good day to die
It was a beautiful day
And now the moon is shining bright
And I got my boots on
It's a good day to die
Oh, oh, it was a good day to die
It was a good day to die
And it'll all be good by and by
Oh but it's a good day to die
It was a good day to die
Oh it's a good day to die
And it'll all be good by and by
Oh it's a good day to die
