I am no Van Gogh  
I am no Picasso  
No vans go into your town  
No vans go  
No Van Gogh

This is me trying to find the words that you should have  
heard  
You say nothing you say everything to me  
So stop stuttering

What can I build you?  
A carpenter without a clue  
Michelangelo, swing low  
A swing set's as high as I can go

This is me trying to find the words that you should have  
heard  
You say nothing you say everything to me  
So stop stuttering

You say nothing you say everything to me  
So stop stuttering

This is me trying to find the words that you should have  
heard
