I don't care anymore if I let you down
I believe that I need to be free
I'm so used to my life with you around
I don't know anymore....the real me

And I thought that I found myself
And I thought that I had control
All the change in my life just fell away
For a moment I didn't need you

All these tears that I've cried
You must be tired of taking care of me but
Its what you do best and
I'm a liar cause really its what I need

And I thought that I found myself today
And I thought that I had control
All the change in my life just fell away
For a moment I didn't need you

Someone like you
Someone like me
Maybe its change that set you free
Free....

And I thought that I found myself today
And I thought that I had control
All the change in my life just fell away
For a moment I didn't need you

And I thought that I found myself today
And I thought that I had control
All the change in my life just fell away
For a moment I didn't need you
