Im going downtown On a Fullmoon Saturday Night  
Going downtown On a Fullmoon Saturday Night  
Going dwtrown, looking for a crowd,  
Going where they like to turn the Music way up loud.  
Going downtown On a Fullmoon Saturday Night.  
Her comes Rose, she wants to sit in with the band,  
Her comes Rose, she wants to sit in with the band,  
Yonder Comes Rosie on a Saturday Night  
She's doing good for pushing Eighty, maybe she could  
shed some light,  
on the meaning of the feeling of a Fullmoon Saturday  
Night.  
Now everybody wants to party all through the night  
Even my honey wants to boogie till the broad day light  
Go ahead honey if you thinks it's all right  
But tomorrow in the morning you'll begin to see the  
light  
and the meaning of the felling of a Fullmoon Saturday  
Night.
