It's not workin' but I wish it would
She don't care about the things she should
I don't know how she got me but I know she got me
good
She's wakin' me up but I'm wakin' up slowly
I'm talkin' her up, but I still sound lonely
If only she could show me all the sadness that she
shakes when she bends until she breaks
And just hear me when I say that

You whenever you fall
Wherever you go
I'll catch you
I'll pick you up and carry you home.

She's bright eyed with a brilliant smile
She's opening up but it could take awhile
I'd walk a hundred miles of wrong just to try and make
it right
I wondered at first but now I know I'm sure
in every line and every single word of every song she's
ever heard
She's falling in love with the way that I'm taking her
through the day
Believe me when I say to you

Whenever you fall
Wherever you go
I'll catch you
I'll pick you up and carry you home

I'll be the nights that give you sleep
I'll be the days that lie between
I'll be the world beneath your feet
If you let me
I'll be the only love you'll need
If you get me

Whenever you fall
Wherever you go
I'll catch you

I'll pick you up and carry you home
